PAY EQUITY HEARINGS TRIBUNAL
NOTICE TO THE COMMUNITY

INTERPRETATION SERVICES

The Tribunal offers French interpretation for its mediation meetings and hearings.

The Tribunal will provide a sign language interpreter (American Sign Language, langue des signes québécoise) or real time captioning for anyone participating in a proceeding who has a hearing impairment.

To request a sign language or French language interpreter, please include this request in your application or make your request in writing to the Tribunal's Registrar. Make your request as soon as possible and well in advance of your hearing.

Parties who require the services of an interpreter for a language other than French are required to arrange for their own interpreters at their own cost.

Interpreters will be asked to affirm their knowledge of English and the other language, and their commitment to provide accurate and reliable interpretation of the Tribunal's proceedings, including verbatim interpretation of a witness's testimony.
